

How to Succeed in Challenging Economic Times

Part of our In-house training, “Anywhere, Anytime” series of Budget Priced Seminars

Overview

As the work environment becomes more challenging, employers are being forced to reduce costs to enable long term organisational sustainability. Increasingly, employers are concerned with how they can prepare their staff to succeed in these challenging times. This seminar is geared to remove uncertainty about the current economic environment, boost morale and provide a success framework relevant to all in the organization.

Target Audience

Includes managers, operational staff and employees. Anyone wanting to understand the current economic environment and concerned with their own personal development will benefit from this seminar.

Seminar benefits

- Improved employee morale
- Remove employee uncertainty and pessimism regarding the current economic environment
- Provide employees with a framework to guarantee their success
- Fully customizable training - you can mix training items from the different sessions offered
- The training time is short and can be focused on the specific areas you require – translating to less employee time away from the job
- Reduced training pricing since cost is per session for a group of employees rather than per employee. Sessions start at TT\$1,200 + VAT for a group of under 15 persons
- Session comes with a money back guarantee – if you don’t benefit you don’t pay.
- CPD training certificates provided for attendees
- Sessions can be facilitated to your convenience on week days, before or after working hours or on weekends

Session duration

This seminar can be customized to your organizations requirements. A general seminar covering the below mentioned topics can be facilitated in **two hours**. A more customized seminar including practical / experiential exercises can be done in **six hours to a day’s time**.

Topics to be covered

The topics include but are not limited to the below mentioned. We can add, delete or modify topics specific to your organisation’s requirements.

- The Economy & Business Cycles – understanding periods of growth and recessionary times
- Difficult Economic times vs Recession vs Depression
- Trinidad & Tobago - understanding the macroeconomic trends and where we are in the business cycle at present
- Trinidad & Tobago – Economic outlook / challenges in the next 1-2 years
- What are the opportunities for individuals?

- What are the opportunities for businesses?
- What we need to do differently to succeed in challenging times. Covers the five key areas to succeed including – a framework for success, managing investments, expenditure management techniques, self enhancement techniques and income enhancement opportunities
- General personal enrichment advice

Seminar price

This is a budget priced seminar. The price is quoted per session rather than per person so your outlay is less. For a two hour general session including the topics above for up to 15 attendees the total training investment is only TT\$1,200+ VAT. If you require two or more sessions the price falls to TT\$999.00 + VAT per session. The price per session will change based on the level of customization required.
